Complete list of road signs

50 m  M1  Specifies the length of the section between the dangerous signal and the beginning of the passage or area where regulations apply, or point

500 m  M1  Specifies the length of the section between the dangerous signal and the beginning of the passage or area where regulations apply, or point

2400 m  M1  Specifies the length of the section between the dangerous signal and the beginning of the passage or area where regulations apply, or point

4.5 km  M1  Specifies the length of the section between the dangerous signal and the beginning of the passage or area where regulations apply, or point

15 km  M1  Specifies the length of the section between the dangerous signal and the beginning of the passage or area where regulations apply, or point

53 km  M1  Indicates the brand of fuel distributor and the distance remaining until the next fueling station on a motorway service area or divided highway without waterfront access.

50 m  M2  Specifies the length of the dangerous section or subject to regulation or subject the indication

500 m  M2  Specifies the length of the dangerous section or subject to regulation or subject the indication

2500 m  M2  Specifies the length of the dangerous section or subject to regulation or subject the indication

4.5 km  M2  Specifies the length of the dangerous section or subject to regulation or subject the indication

15 km  M2  Specifies the length of the dangerous section or subject to regulation or subject the indication

M3a  Indicates the position of the relevant channel by the panel that complete

M3a  Indicates the position of the relevant channel by the panel that complete

M3a  Indicates the position of the relevant channel by the panel that complete

M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

50 m  M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

M3b  Indicates the direction to follow, and possibly how far, to meet service indicated by the panel

m3d  Indicates that the full panel that refers to the path over which it is implanted

M4a  Refers to vehicles or combinations of vehicles with a gross vehicle weight rating or the total authorized rolling weight is less than 3.5 tons.

M4b  Means those transit of people
Complete list of road signs

M4c
Refers to light motorcycles and motorcycles, as defined in Article R.311-1 of the code of the road.

M4d1
Designates cycles.

M4d2
Refers mopeds.

M4e
Denotes that the registration carries the users concerned.

M4f
Refers to vehicles, articulated vehicles, trains or double sets of vehicles whose gross vehicle weight rating or the total permissible weight exceeds the specified number.

M4g
Means the affected vehicles the transport of goods.

M4h
Refers to vehicles, articulated vehicles, trains or double sets of vehicles used for the transport of goods and whose gross vehicle weight rating and the total permissible weight exceeds the number indicated.

M4i
Designates agricultural vehicles engine.

M4j
Refers to vehicles equipped snow chain.

M4k
Refers to vehicles carrying explosive or inflammable goods, kind and amount defined by the order of 1 June 2001 on the transport of dangerous goods by road, as reported such

M4l
Refers to vehicles carrying of goods which pollute water, nature and quantity defined by the order of 1 June 2001 on the transport of dangerous goods by road, and indicated as such

M4m
Refers to vehicles carrying dangerous goods defined by the order of 1 June 2001 on the transport of dangerous goods by road, indicated as such

M4n
Mean facilities Disabled facilities physical

M4p
Means pedestrians.

M4q
Refers to vehicles, articulated vehicles, trains or double combinations of vehicles with a length greater than the number indicated.

M4r
Refers to vehicles weighing more on the axle specified number.

M4s
Refers to drive vehicles animal.

M4t
Means the handcarts.

M4u
Refers to vehicles whose width, load included, exceeds the number indicated.

M4v
Means those whose height, load included, exceeds the number indicated.

M4w
Refers to vehicles towing a trailer with a gross vehicle weight rating exceeds 250 kg

M4x
Refers to vehicles towing a caravan or trailer over 250 kg and total weight rolling, and trailer vehicle, do not exceed 3.5 tonnes

M4y
Denotes riders

M4z
Indicates the category of a tunnel with respect to the dangerous goods.
Complete list of road signs

**M5**
Indicates the distance between the signal and where the driver must mark off and yield.

**M6a**
Indicates that the parking and/or shutdown is inconvenient in the sense of Article R.417-10 of the highway code. In the case of illegally parked, he completed the B6a1 or B6b1 panel. In the case of parking and stop annoying, he completed the B6d panel. In both cases, an offense vehicle may set a pound.

**M6b**
Indicates that parking is unilateral in alternation Semi - Monthly

**M6C**
Indicates the maximum parking time with control disk and, the limits of the period of application of the measured

**M6d**
Indicates that parking pays with meter

**M6f**
Provides details Concerning Prohibition

**M6G**
Gives various indications not concerning prohibitions

**M6H**
Signals that the parking is reserved for vehicles used by disabled people with reduced mobility: large civil invalid, badly disabled war veterans or holders of securities referred to in Article L.2213 local authorities

**M7**
Panonceau scheme. It represents a diagram intersection that will be addressed and indicated by a line wide priority branches. The vertical branch in the lower half of the tab sign represents the road on which it operates.

**M7**
Panonceau scheme. It represents a diagram intersection that will be addressed and indicated by a line wide priority branches. The vertical branch in the lower half of the tab sign represents the road on which it operates.

**M7**
Panonceau scheme. It represents a diagram intersection that will be addressed and indicated by a line wide priority branches. The vertical branch in the lower half of the tab sign represents the road on which it operates.
Complete list of road signs

**M8A**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the limitation applies extends after the sign (that is the beginning of the section).

**M8b**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the limitation period applicable stretches before the panel (it is the end of the section).

**M8C**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the regulation applies extends on either side of the panel (it is a reminder).

**M8D**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the regulation or extends in the direction indicated by the arrow or arrows.

**M8E**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the regulation or extends in the direction indicated by the arrow or arrows.

**M8F**
Plaques application requirements regarding parking and stopping. Indicates that the section on which the regulation or extends in the direction indicated by the arrow or arrows.

**M9a**
Indicates that the panel which it is associated concerns an area Air danger.

**M9B**
Indicates that, at the crossing, the railway is electrified.

**M9c**
Yield

**M9D**
Indicates that the passage Pedestrian is raised

**M9e**
Indicates the location of an emergency stop has a post emergency call

**M9f**
Indicates that the emergency stop location has an emergency phone and a means of struggle against fire

**M9j1**
Indicates the collision risk slow vehicles

**M9j2**
Indicates the collision risk slow vehicles

**M9v1**
Indicates that the prescription given by the associated panel does not apply to cyclists

**M9v2**
Indicates that the prescription given by the associated panel does not apply to cyclists

**M9z**
various indications inscriptions.

**M9z**
various indications inscriptions.
